CLINICAL ALARMS LIST AND PRIORITY RANKING
PATIENT SAFETY GOAL #6

Risk ranking to patient safety
1. High risk
2. Moderate risk
3. Minimal risk

Audibility
1. Level acceptable
2. Level unacceptable

Patient Placement
1. Requires patient to be near Nurses Station
2. May be placed anywhere on Nursing unit
3. Constantly attended

Alarm Distinguishable
1. Easily identified with competing noise
2. Cannot be identified with competing noise

ALARM	PATIENT CARE	NON PATIENT CARE	RISK RANKING	AUDIBILITY	PATIENT PLACEMENT	DISTINGUISHABLE

Each unit needs to fill in their specific equipment, as they are all different, and then score, then you can prioritize and plan.
You can erase this, it was easier to send to the multiple requests.
