

Restraint Data Aggregation Record

Unit: _____

Month: _____

PERFORMANCE MEASURE	Calculations	Total Number	Notes
Total number of patients with restraint usage			
Total number of episodes of restraint usage			
Total number of episodes of restraint usage on 7 - 3 shift			
Total number of episodes of restraint usage on 3 - 11 shift			
Total number of episodes of restraint usage on 11 - 7 shift			
Types of restraints used:			
Number of Physical Hold			
Number of Soft Chest Posey			
Number of Geri-chair with tray			
Number of Lap Buddy			
Number of Soft Limb			
Number of Cloth Mitts			
Number of Leather			
Performance Measure: A signed order is present for each episode of restraint usage			
Numerator: Number of orders for restraint usage with a signed physician order			
Denominator: Total number of episodes			
Performance Measure: The order for restraint usage is time limited			
Numerator: Number of time limited orders for restraint usage			
Denominator: Total number of orders for restraint usage			

Restraint Data Aggregation Record

Unit: _____

Month: _____

<p>Performance Measure: The time limited order for restraint usage is specific to the unit (Med/Surg - not more than 24 hours; Behavioral Health Units - not more than 4 hours for adults, and not more than 1 hour for child/adolescents)</p>			
Numerator: Number of orders for restraint usage that are time limited			
Denominator: Total number of orders for restraint usage			
<p>Performance Measure: Justification for restraint usage is documented</p>			
Numerator: Number of episodes of restraint usage with documented justification			
Denominator: Total number of episodes of restraint usage			
<p>Justification: Total number of episodes to--</p>			
Prevent injury to self			
Prevent injury to others			
Combative/Threatening			
Fall Prevention			
Assessed Need (Adaptive Support/Medical Protective Device)			
Other			
<p>Performance Measure: Documentation indicates that prior to use of restraints, less restrictive alternatives were used</p>			
Numerator: Number of episodes of restraint usage that indicate less restrictive alternatives were used			
Denominator: Total number of episodes of restraint usage			
<p>Performance Measure: The Restraint Flow Sheet is completed appropriately</p>			
Numerator: Number of Restraint Flow Sheets completed appropriately			
Denominator: Total number of episodes of restraint usage
